

**Strengthening fisheries sustainability outside EU**  
**CETMAR, Vigo, 26-27 June 2018**

Governance in the SFPAs and  
the High Seas (WP3)

Ingrid Kvalvik, Nofima, Norway

# Improving knowledge

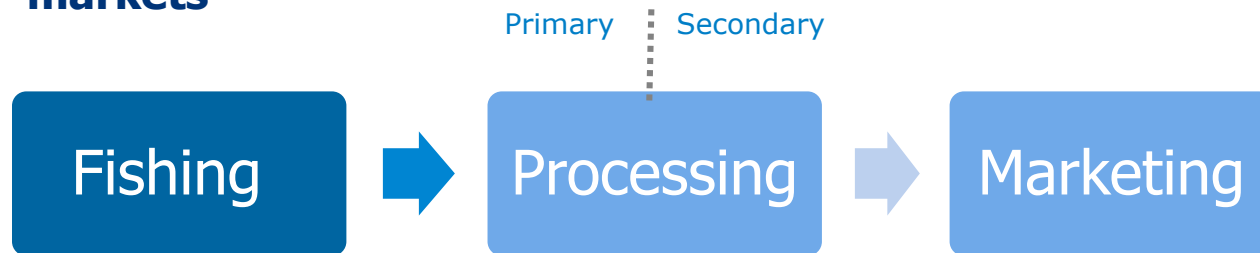

# How to measure socio economic impact

## Value Chain Analysis

For each Case Study (6) we will map:

- the (main) flow of volumes & value between links in each VC
- (main) actors in and between links in each VC
- the profitability and value creation in each VC
- structure, governance & relationships in (intermediate) markets

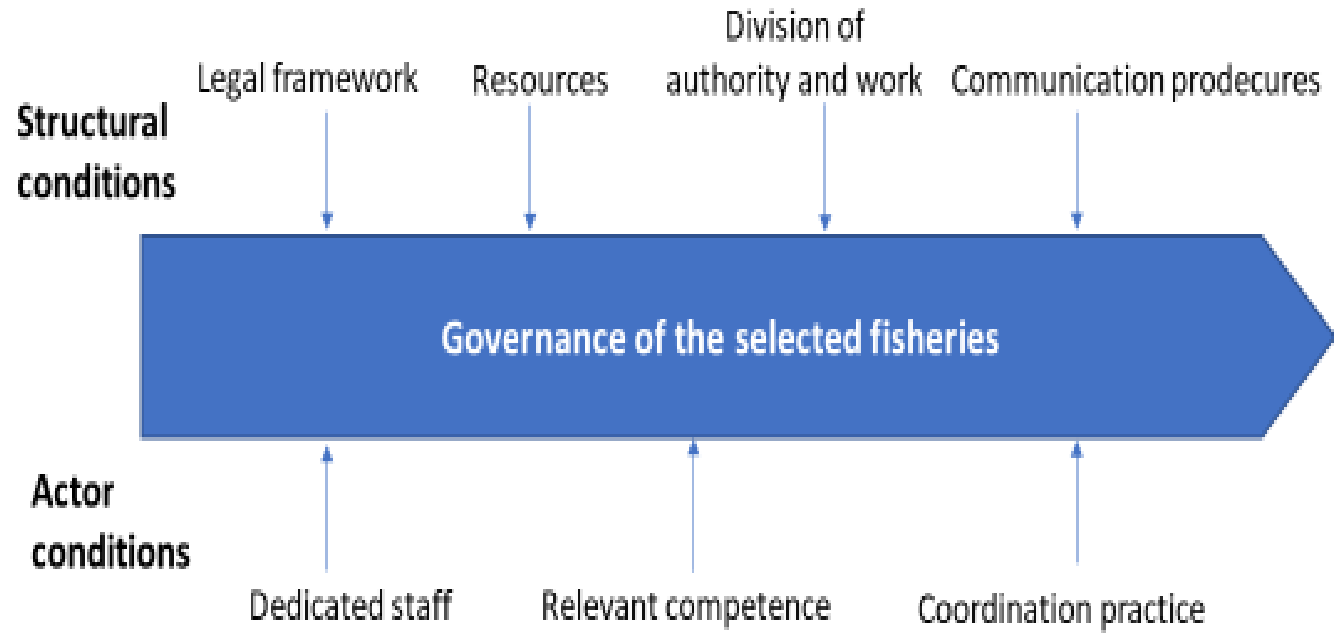

Also:

- Best practises (traceability, food security, sustainability)
- Employment & ownership (local versus EU)

# The Governance analysis

Conditions	Facilitating	Barriers
<b>Structures</b> <ul style="list-style-type: none"> <li>- Legal framework</li> <li>- Resources (human, technical and physical)</li> <li>- Clarity of authority and division of work</li> <li>- Communication procedures (internal and external)</li> </ul>		
<b>Actors</b> <ul style="list-style-type: none"> <li>- Staff</li> <li>- Competence</li> <li>- Coordination practice</li> </ul>		

Challenges 1 minor → 5 major	South West Atl.	South East Atl.	Capo Verde	Senegal	Sey- chelles	Mauri- tania
Legal framework for sustainable fisheries	5	1				
Enforcement institutions						
Human resources						
Technical resources						
Catch data						
Monitoring and control at sea						
Monitoring and control at port						
Bycatch and discard issues						
IUU fishing						
Is the SFPA agreement covering all relevant issues?						
Coordination nationally						
Coordination between CS and EU institutions						
Cooperation with EU fleet and flag state						

# Development of Guidelines and alternative strategies
